

Compliance Rules & Reporting Annex

Document Reference:	IT-SEC-PM-01-A
Linked Policy:	Patch Management Policy (IT-SEC-PM-01)
Effective Date:	[Insert Date]
Issued By:	Information Technology Department
Classification:	Internal Use Only

1. Purpose

This annex defines measurable compliance criteria, reporting intervals, and remediation workflows required to verify the effectiveness of the clinic's automated patch management program.

2. Compliance Criteria (Definition of “Compliant Device”)

A device is considered Compliant when all of the following criteria are met:

- OS Patch Currency: Latest monthly quality updates/cumulative patches are installed.
- Security Signatures Current: Microsoft Defender signatures updated within 24 hours.
- Last Check-In: Device checked in to Intune within the last 24 hours.
- Reboot Status: Required reboots completed within approved maintenance windows.
- No Update Failures: No outstanding failed or pending update states.

3. Reporting Requirements

Patch compliance status will be monitored using Microsoft Intune compliance reporting tools. Reports will be generated according to the following schedule:

- Daily automated compliance summary (IT internal).
- Weekly compliance review for operational visibility.
- Monthly compliance audit for risk tracking and HIPAA alignment.

4. Required Metrics

- Compliance Rate (percentage of compliant devices)
- Non-Compliant Device List (with reason codes)
- Update Failure Rates
- Average Time-to-Patch
- Last Check-In Timestamp Exceptions

5. Remediation Workflow

Devices identified as Non-Compliant for more than 72 hours will be flagged for remediation. Persistent Non-Compliant status beyond 7 days may trigger additional controls, including network access restrictions.

6. Exception Handling

Exceptions may be granted for legacy or vendor-restricted medical systems. All exceptions must be documented, approved by the IT Technician, and reviewed quarterly.

7. Approval Signatures

Prepared By (IT Technician):	_____	Date: _____
Approved By (Clinic Manager):	_____	Date: _____
Approved By (IT Supervisor):	_____	Date: _____
